
SOUROV BASU

Next.js & MERN Stack Developer

8, T.B Cross Road, Khulna-9100 | 01407324971 | souravbasu123456@gmail.com

PROFILE SUMMARY

As a recent graduate in Computer Science with a passion for web application development, I am eager to embark on a career as a MERN Stack and Next.js Developer. Armed with a solid foundation in full-stack technologies and a keen interest in building dynamic and interactive web application, I am excited to contribute my skills to a collaborative development team.

CORE SKILLS

- | | |
|---|--------------------------------------|
| ✓ Front-End: React.js (JS or TS) | ✓ GraphQL headless CMS, Sanity.io |
| ✓ Back end: Node.js | ✓ Git, Github |
| ✓ Database: MongoDB, Appwrite, Firebase | ✓ Additional: React-query, Socket.io |

EDUCATION

2016 - 2022 | KACST, Affiliated by National University

Bachelor of Computer Science & Engineering

KEY HIGHLIGHTS

- Proficient in React.js with a focus on creating responsive and interactive user interfaces
- Experienced on leveraging TypeScript in React and Next.js projects for enhanced developer tooling and collaboration
- Very attention to detail and follow the best practices to provide clean, well commented & easily maintainable code

KEY PROJECTS

Quizzey (Platform to organize competitive quiz competition)

- Teachers can organize quiz competition & students can join the competition to compete among themselves with their profiles, competition history and achievements

Events Management System

- Hosts can manage their events where interested people can join the events & can pay the event fee through the application

Social Media Platform (Basic Features)

- Implemented authentication with role based authorization integrating with MongoDB & performing CRUD operations with like, comment, share functionality
